

Revised Policy Scorecards and Maximum Strokes per Hole  
(Approved 11/5/2018 – Effective 1/1/2019)

If a player chooses to pick up her ball or is required to pick up her ball and does not finish a hole, the score for the hole is double par + 2. Please precede the player's maximum score with an X; i.e., X8.

**Maximum Hole Score for Regular League Events**

To aid Pace of Play, players are required to pick up prior to finishing the hole when their score for the hole has or will reach double par plus two. See the chart below:

Hole Par	Pick up when your score reaches	Score to record
3	8	X8
4	10	X10
5	12	X12

The score listed on the card will show the maximum score for that hole with an "X". For example "X8" for a par 3, "X10" for a par 4, or "X12" for a par 5. Per the 2019 USGA rule 21.2 the player is not disqualified for picking up and taking the maximum strokes per hole for their score.

Every player must sign the scorecard before it is turned in to the green box on the shelf beneath the Niners' bulletin board.

Players who do not complete all holes are still required to post their equitable stroke score for handicap purposes.

This policy may be waived by the Executive Board for special events or tournaments.
