

## ODDS

In this game only the net score for the “odd” numbered holes count toward your score for the competition of the day. Holes 1, 3, 5, 7 and 9 count for the competition of the day.

Play your usual game from your regular assigned tees (Red, Red/Aqua, or Aqua).

Record your gross score for each hole. In addition, record your net scores for each odd numbered hole.

Total your 5 net scores for the play of the day.

Post your gross score adjusted for Equitable Stroke Control.

Flights will be determined by handicap index and the number of participants as usual. Ties will be broken by card playoff starting with the most difficult of the 5 holes used in the competition. If a tie remains after the 5 holes are compared, the competitors will share the winnings.
